TEN CENTS

FRESHMAN PROM ON MAY FIFTH WILL BE BEST DANCE OF THE YEAR

The Freshman Prom this year promises to be the best given by any previous Freshman class. In pursuance of one of the oldest customs of the University, the Freshmen hope to excel all the previous dances of the year which have been given at the University. The dance is to be held at Rauscher's on May 5. The finest dance music in Washington has been secured to insure the success of the party. Myer Davis, accompanied by six other musicians, are to play. A novelty in the way of programs is an added attraction. Leather souvenir programs have been purchased for the girls; each program has a place for cards, a mirror and a powder-puff. The refreshments are to be served by Rauscher.

The Freshmen Prom in former years was the one social function of the scholastic year. The University has been more fortunate this year in its list of parties and the competition between classes has been keen. The Freshmen, however, are confident that their party will far surpass all those given earlier in the year.

Last year, when the University was under the pseudo-military rule of the S. A. T. C., there was no Freshman Prom and every member of the student body felt that something was lacking. This year there is no such condition, and it is the duty of every member of the University to make an attempt to obtain a ticket to the dance in order to maintain the spirit and traditions of George Washington. Tickets may be obtained from Thomas E. Lodge and Jean Boardman at the Law School; from Messrs. Johnson and Cates, the President of the Freshman class of Columbian College; from Miss Johnson, the Secretary of the Engineering class of '23; from G. W. Young, President of the Freshmen Dental class; and from Radford Brown and J. P. Earnest, Jr., at the Medical School. The price of the tickets, per couple, is \$4.

JUNIORS PLAN FOR DANCE

George R. Sheriff, '21, has been appointed Chairman of the Committee of the Junior C. C. Class to arrange for the final Junior social event of the year, a favor (informal) dance at the Hotel Lafayette, on the 12th of May. The other members of the Committee are: Miss Mary Roberts, Miss Rosemary Arnold, Miss Gladys Phoebus, Mr. Francis McKoy, and Miss Ethel Johnson.

This dance will be a closed affair for the Juniors of Columbian College with the exception of a very limited number of Engineering and Law Juniors, according to reports sent out by Mr. Sheriff. There are but forty tickets for the dance and Juniors who desire to attend should secure tickets immediately. Mr. Laphin, of the Engineering School, will arrange for all Engineering students who wish to attend, and Mr. McKoy will arrange for all others.

Mr. McKoy is in charge of tickets and of the financial end of the party.

HATCHET TOUR POSTPONED.
Because of the approaching exams, THE HATCHET tour to Luray has been postponed until the finals have safely passed. The tour will take place, probably the last week in May, but final notice of the date will be printed later.

"EMULATE THE SNAKE" NEW SLOGAN ADOPTED

"Emulate the snake and wear your suit 'till it drops off," is the slogan that was adopted at a mass meeting in the rear of Lisner Hall in the interest of the "Old Clothes" movement last Friday afternoon.

The sentiment, "Wear your old clothes," is the popular one around George Washington just now. The student body has accepted it enthusiastically and several of the Faculty including Deans Hodgkins, Ruediger and Henning and Professors Brown, Doyle, McNeil, Sweet, Schoenfeld and Woodman.

Saturday is the day set for the beginning of the crusade against the clothes profiteer. It is planned to hold a snake dance, led by H. Janney Nichols, on the back campus, and a battery of movie men and newspaper photographers is expected at the scene.

John Garms, one of the backers of the movement, has sent this notice to THE HATCHET:

In order to help reduce the high cost of living, members of the faculty and student body at George Washington have pledged themselves to wear old

Continued on Page 3, Column 4

SCHOLARSHIP TROPHY OFFERED BY INTERFRATERNITY

A scholarship trophy was established by the Interfraternity Association in a meeting at the Kappa Sigma House on last Sunday morning.

The trophy will be awarded each year to the fraternity in the Association making the highest average in scholarship, the President's figures, taken from his annual report, to be used as a basis for determining the winner. Winning the trophy three times, not necessarily consecutive, will entitle a fraternity to its permanent possession.

Each winner's name will be engraved on the trophy, which will remain in the winner's possession for a year following the school year in which it was awarded.

The Association appropriated a sufficient sum, to be not less than \$50.00, to purchase the trophy, and appointed a committee to select at once a loving cup or other suitable award. Further details regarding the rules governing the awards will be made public later.

The Association feels that its purpose should be not only to endeavor to promote better fellowship among the fraternities, and better school spirit among all students in the University, but also to promote higher scholarship. Heretofore there has been little interest in the relative scholastic standing of the various fraternities at G. W. U., but it is hoped that the establishment of such a trophy, with the resulting competition and rivalry, will stimulate each fraternity to demand of its members harder school work and higher standing in classes.

The delegates to this year's Interfraternity Council plan to hold a banquet, dinner-dance, or some kind of a party during May. There have been more meetings, more matters of importance considered, and more things actually accomplished during the past year than in many of the preceding years, and the delegates feel that, since the year's work is now done, a celebration is properly in order.

The Committee reported that the Prom was a financial success, and that a substantial sum would be turned into the treasury.

The Association's next meeting will be at the Phi Sigma Kappa House on May 23, when the delegates to the Council for next year will meet to elect officers for 1920-1921.

BALL TEAM LOSES CLOSE GAME TO GALLAUDET

George Washington's baseball team lost to Gallaudet College in a closely contested game at Kendall Green, Wednesday, by a score of 5 to 4.

The score remained 4 to 2 in our favor up to the eighth, when Gallaudet managed to bring in three runs, which turned the tide in their favor.

One of the features of the game was the splendid work of Gilbert Ottenburg. He pitched an excellent game and also landed some good hits for George Washington. The pitcher received the best of support from the rest of the team.

Mark Hanna, centerfield, waded into a few of Gallaudet's curves and made some of the best hits of the game.

George Washington made a splendid showing in this game and we all look forward with high hopes for our nine in the coming contests.

George Washington's baseball team, in an eight-inning practice game last
Continued on Page 2, Column 5

TENNIS TEAM VICTORIOUS

George Washington's Tennis Team cut a wide swath of victory on its trip through Virginia, the University netmen taking all matches from V. M. I. and Lynchburg. The results of the last match with the U. of Va., played Wednesday, were not known in time for publication in this issue.

Ladd, Aten, Pope and Summerkamp made the trip with the team and did excellent playing. Their work is a credit to George Washington.

Full account of the trip and of the scores of the matches will appear in the next HATCHET.

The tennis team split even with Catholic University in a closely played match last week and took five of the eight games from Maryland State last Friday.

DIRECTOR OF PLAY ASKS MORE SUPPORT

The director of the Senior play, "Bluffs and Blues," has issued an appeal for more talent for the cast of the farce to be presented during June Week. Rehearsals for the play are taking place regularly in the Chapel of Lisner Hall on Tuesday nights and the director hopes to be able to publish the complete cast within the next week.

"Schulte" Voelker, who had one of the leads in the Junior play, has been given a part in the Senior play, and it is hoped that with the addition of several more like him the play will come off in great style.

The Senior class is working to make the June Week a great success, and hopes to outshine the efforts of the Juniors. The class has adopted a motto of "Tails Up—Make June Week a Success," and it hopes to take its place in the annals of the University—"at the top!"

HATCHET DELAYED THROUGH LACK OF TYPEWRITER.

The delay in the appearance of this issue of THE HATCHET is due to the fact that the one and only typewriter it possesses (and that is rented) was man-handled to the point of losing its entire usefulness and the waiting copy was forced to go untyped until Wednesday night.

ATHLETIC MANAGERS AND CAPTAINS VOICE NEED OF GYM

The Managers and Captains of the University Athletic Teams are unanimous in the opinion that George Washington needs a gymnasium, that the spirit and morale of the teams would be enhanced by the facilities afforded by a gymnasium, that the erection of a gymnasium is a fundamental and vital need, that the building of a gymnasium is a possible and feasible matter, and that insofar as they are able, they will support a fund or campaign to raise money to build one. This consensus of opinion was obtained through questionnaires sent out by THE HATCHET last week and voices the opinions of practically all the wide-awake and spirited students at George Washington.

The questions asked were intended to cover the entire field of the gymnasium matter, and the answers fully justified the contention that G. W. is in need of a gymnasium to help in the development of its students and to aid in strengthening the spirit and morale of the teams. The team officials have gone on record favorable in no unstinted terms, and their opinions are best made known by the answers received.

The questions asked are as follows:

1. Does George Washington need a gymnasium?
2. Do you think there would have been any improvement in the playing or morale of the team you represent, had there been a gymnasium here at George Washington?
3. Just what advantages do you think the University as a whole as well as the student body would derive from a gymnasium?
4. What plan for the erection of a gymnasium do you suggest as the most possible and most feasible?
5. Will you be willing to lend your support to a movement such as THE HATCHET is carrying on?

The answers received are as follows:

From CHARLES M. BOTLER, Captain of the Basketball Team, 1920-1921:

1. Emphatically "Yes."
2. Undoubtedly. Last winter the basketball team was allowed the use of the Y. M. C. A. floor three evenings a week, from 7 to 8 o'clock. This was the only time that could be secured. With classes ending at 7 o'clock, it was impossible for the team to be on the floor before 7.15 or 7.30, thus giving never more than three-quarters of an hour of actual playing time. Insufficient practice, coupled with the fact that outside men were invariably on the floor interfering with the work, was fatal to the chances for a successful team. A team's morale is never strengthened by absence of rooters at the games, and who shall say that, with a fine, new gymnasium in which to play the games the team would lack for supporters?

3. A university possessed of good gymnasium facilities is invariably enabled to compete successfully in indoor athletics with other universities. Given proper equipment, the George Washington University could produce basketball teams the equal of any in this section.

4. An active campaign among the citizens of Washington would bring thousands of dollars, I believe. If any one thing is needed among the Trustees, Alumni and students, it is concerted action, with one object in view—the George Washington University Gymnasium.

5. I am ready to do anything within my power to make possible a new gymnasium.

From ARTHUR E. NALL, Manager of the 1920-21 Basketball Team:

"Yes, we need a gymnasium and we need it more than most any other building. If the teams has a gym of their own they could put more time in prac-

tice, and, as a consequence, the morale and the playing would be greatly improved. It would also afford a place to have all school meetings and entertainments."

"I will be glad to do anything to support this movement."

From JOSEPH L. BURNESON, Captain of the 1920 Baseball Team:

"George Washington as well as every college should include a gymnasium in its institution. It is being realized more and more by modern educators that the mental training a man receives at college does not alone suffice, but that the physical training in conjunction is necessary to properly execute and apply the result of the mental training. How much is this being realized is shown in the fact that all the big schools and colleges are gradually installing gymnasiums in their institutions and are requiring that certain time should be spent in the gym as credit toward graduation.

"All the big institutions are striving for supremacy in the athletic field. The secret of the development of the first class college team is the gymnasium. First of all it enables the men to keep in trim the year round by continuous training. It is undoubtedly known that much time is spent in the early playing season in getting into condition. Very frequently new men overwork themselves by not being able to develop and cure sore muscles. Gymnasium work would eliminate this to a certain extent. "With a gymnasium, training can be kept up under all conditions. Bad weather and other handicaps do not interfere. This brings about a decided advantage. Also a team may get an early start, as for example, the baseball team.

"Another important factor indirectly connected with the gymnasium is the selection of men for athletics. Many students try out for the big teams while not physically strong for such strenuous work. The director of the gymnasium being in contact with the students can by his examination pass or limit the candidates for college teams to those who have shown themselves qualified to engage in strenuous exercise.

As important as the gymnasium is to a college, it would be a step in our advancement in many respects that should new buildings be erected, provisions of some sort be made for a gym. I am interested in the movement for a gymnasium and would lend my support in any way I can.

WASHINGTON, D. C. APRIL 29, 1920

PULL FOR JUNE WEEK!

By DETLOW M. MARTINSON.

The Class of 1920 is endeavoring to make a name for the University, pave the way for an added college spirit, and give the whole student body a good time during June Week. In order to accomplish this purpose the support of the entire student body is necessary. Publicity is the greatest single benefit that can accrue to the University at this stage of its career. We are on the verge of success in attaining that greatest of all college assets—a full program of college activities. The Senior Class is doing its share to boost college spirit. Are you giving the University its full quota of publicity? Are you contributing your efforts to some phase of college activity? It behooves every college man and woman to lend his or her best efforts to the advancement of the University. What are you doing?

The program for June Week includes a Senior Play, a Prom, and a general Senior Party; probably a trip down the river. A great deal of work will be necessary to put the week over, and it is not at all possible for one or two members of a class to undertake the full responsibility. For the Senior Play are needed some good parodies on popular songs on some phase of student life. There are many students who can write humorous verse. Are you one of them? Write a parody and send it to the Director of the Play. Can you dance, sing, or take part in a performance? You are the person needed for the Play. Anyone can sell tickets for a college function. Who will volunteer? Can you draw a poster? June Week will need much advertising. Draw a poster and send it to the Committee in Charge. These are only a few of the many things that are necessary to be done in connection with staging a successful University function. What will you do?

Since June Week will be the last general University event of the year the full cooperation of the student body will be necessary. To that end all functions that may tend to interfere with the success of a banner week should be abandoned and all persons interested should feel it their duty as well as their pleasure to come out and fulfillment of that dream of every student in college: A GREATER work for this one thing, this big thing that will do much toward the GEORGE WASHINGTON UNIVERSITY.

Come out and work!

It's OVERALL the college.

Will we see the co-eds coming to class in gingham dresses and carrying their lunch in a milk pail?

The Hatchet is the instrument with which to express your views on ways to cut the H. C. of L. relative to college life.

Will someone put "Patches" on the Victrola?

Wonder if the uniform of the day for the Freshman Prom. will be rompers.

The baseball team of the Phi Sigma Kappa Fraternity challenges the ball team of any other Fraternity or other organization at G. W. U. to a game or series of games to be played as soon as arrangements can be made. We have the diamond and are ready any time. Address all acceptances to R. S. Nagle, 1916 16th Street N. W., or care of THE HATCHET Office.

Lambda Chapter of Phi Sigma Kappa Fraternity held a dance at the Chapter House Saturday, April 24th, in honor of the initiates of the spring of 1920, David Malcolm Hodge, Washington Irving Cleveland, John G. Glass, L. Glenn Anderson, Paul J. Guinther, Fred E. Hornaday, Emerson C. Cook, and Charles S. Rowe. Patrons were Mr. and Mrs. F. Wallace Stoeber and Mr. and Mrs. George K. Englehart.

Stupid Stephen Says

"BELIEVE ME, A LOT OF US CUCKOOS THAT HAVE BEEN WONDERING HOW WE COULD GET BY WITH THAT ONE SUIT UNTIL PALM BEACH TIME, WOULD LIKE TO SHAKE HANDS WITH THE BIRD THAT MADE WEARING OLD CLOTHES POPULAR."

Answers to Correspondents.

Dear Stephan:

I broke my right arm and wont be able to use it again before the finals. Can I take oral examinations?

S. O. S.

Dear S. O. S.:

I feel sure you can, but you sure would be out of luck if you got lock-jaw in the meantime.

Senor Stephan:

Vine en un pais castellano, Me permitirais tomar el curso en Español como una de las leguas que he escogido?

HERR TONIC.

Dear Herr:

Si Senor, and if I went to school in Spain, I'd take English.

Friend Stupe:

What brand of cigars may be procured for eight cents?

Answer:

Terrible.

Dear Mr. Stephan:

You are always so considerate and kind I must seek relief from you at this time, and I know you will gladly help me if you can. My sweetheart has told me he loves me—but so many boys have told me that, that I do not know whether to believe him. What can I do to test him?

F. O. B.

Dear Miss F. O. B.:

Invite him to a dance. When he calls all dressed up in his new full-dress suit, tell him he resembles the head waiter at the Powhatan. Then ask him if he wants to wear the flowers he sent you in his button hole, or if he prefers you to carry them. Leave the top of your dorrine open so the powder comes out in his pocket. Tell him Frank and Harry just left and they certainly enjoyed the candy he sent up that afternoon, and when you dance with him be sure to get rouge all over his full-dress tie. Yawn during the entire evening and continually comment on the appearance (favorably of course) of all the he-yamps present. Keep the taxi waiting 20 minutes while you "get your wraps on," and then tell him your feet hurt so much more than when you started out. If he comes back again you know he loves you.

PERSONAL.

Phi Alpha announces the engagement of Doctor Edward Lewis to Miss Sadie Notes.

Dr. H. D. Shapiro, '19, is now at Norfolk, Va., as a first lieutenant in the Public Health Service.

Mrs. Champ Clark and Miss Ethel Mason were hostesses at a dinner-dance at Congress Hall Hotel recently. The guests included Miss Revelle, Miss Marie Dowell, Miss Emily Dowell, Miss Lois McDaris and Mr. Barlow, Mr. Hagaman, Mr. Butler, and Mr. Mac-Monagle.

Lambda Chapter of the Phi Sigma Kappa gave an informal dance for their newly initiated members last Saturday.

About twenty-five couples attended the annual picnic of Sigma Chi Sunday afternoon at Great Falls.

CALENDAR.

Mother's Day this year will be observed by Lambda Chapter of the Phi Sigma Kappa Fraternity Sunday, May 2, when the families of the members of the Fraternity will be entertained.

COLUMBIAN WOMEN TO BANQUET

The Columbian Women are planning to hold their annual banquet at the Chevy Chase Club, on Thursday, May 6th, at 7 p. m. Ruth H. Bennet, corresponding secretary of the organization, has sent the following rules in order that the G. W. Co-eds may know of them in case they should wish to attend the banquet:

The Twelfth Annual Banquet will be held Thursday evening, May 6, 1920, at the Chevy Chase Club, at seven o'clock. Reception at half-past six.

Price, \$2.75.

Guests may be invited.

Place cards will not be returned by mail, but will be given at the door (the night of the dinner).

We are assured that the Club House will be comfortable in every respect, and that an excellent menu will be furnished.

It is hoped that every member of Columbian Women, every woman in the city eligible to become a member, and every student now in the University, will attend.

Reservations will not be made unless remittance accompanies the order.

For reservations send the enclosed card with remittance before Monday, May 3, to Mrs. Henry Grattan Doyle, Chairman Seating Committee, 5416 33d Street N. W., Chevy Chase, D. C. Telephone, Cleveland 606.

SENATOR STERLING ADDRESSES LAW ASSOCIATION

Senator Thomas Sterling, of South Dakota, formerly Dean of the South Dakota Law School, gave a delightful and interesting talk on "The Golden Mean," at the meeting and dinner of the Columbian-George Washington Law School Association, at the City Club, last Friday, April 23rd.

Mr. Samuel Herrick, '01, President of the Association, was toastmaster, and indeed a good one. Short talks were made by Dean Ferson, Prof. Clephane, Prof. Earnest, Mr. A. G. Mills, '69; Mr. Gilbert Hall, '18; Mr. William Washburn, and Mr. William B. King, the latter two being members of the Board of Trustees. The Trustees announced that they had a Law School Building in mind, and that they hoped before the month ended to be able to say that it will be acquired for the University.

Mr. Herrick was re-elected President of the Association for the next year. The other officers elected are as follows: First Vice-President, W. H. Stayton, '89; Second Vice-President, William L. Symons, '95; Third Vice-President, Lyle Alverson, '18; Secretary, William C. Van Vleck, '11; Treasurer, George W. Dalzell, '97; Executive Committee, Gen. William E. Harvey, '93; Edward Stafford, '14, and Phillip Ershler, '17. A committee was also appointed to cooperate with other committees of the University in making the Centennial celebration next year a success.

THE OTHER CHEEK.

The lightning bug is a beautiful bird, But he really has no mind; He dashes through this world of ours With his headlight on behind.

—Pelican.

He squeezed her in the dark and kissed her;

And for a moment bliss was his.

"Excuse me, but I thought it was my sister!"

He said. She smiled and cooed, "It is."

—Sun Dodger.

If two red lips were upturned to your own,

With no one to gossip about it,

Would you pray for endurance to leave them alone?

Well—maybe you would, but I doubt it.

—White and Blue.

She—"This is the first time I've ever been kissed by a man."

He—"That's sort of a slam at the rest of 'em, isn't it?"

—Jack-o-Lantern.

LAW SCHOOL TO ISSUE QUARTERLY

The matter of publishing a Law School Quarterly was referred to a Committee composed of Dean Morton L. Ferson, B. C. Harris, Arthur Van Meter, and a Mr. Jackson, at the last meeting of the Law School Senate, last Wednesday night. The Committee was empowered with executive authority to decide on the type of book to be issued and to ascertain if such is to be published this year. Bids have been asked regarding the publication of the book and the Committee will in all probability make application for the appointment of certain Law students on the Board of Editors. The Committee met early this week and the news of the action decided upon by it will be made known in the next HATCHET.

Mr. Gilbert L. Hall, chairman of the Banquet Committee, reported a profit of sixty dollars from the banquet held April 13th. The money will be turned over to the Senate Treasury.

Brantly C. Harris reported on the gift of a traveling set to Dean Ferson at the banquet mentioned above. The report was accepted.

CHEMICS HOLD ANNUAL BANQUET

Youth mingled with age and wit with wisdom at the annual banquet of the Chemical Society held last Saturday night at the Hotel Monmouth. An eulogy to water, while a still on the speaker's table seemed to turn out a dark colored liquid, which reminded one of former days, and a debate on the League of Nations added pep and interest to the largest and best banquet the Chemical Society has ever had. Brightened up with a large number of the fairer sex, who always add charm to our laboratories, and favored by the presence of Deans and Professors who cast aside their dignity, we ate, we drank (water), we listened to remarks made in jest and in earnest, and we left, appreciating more the usefulness of the society and the part it plays in spreading the spirit of friendship among the students and the influence it yields in promoting loyalty to the University.

The guests of the evening included Dean Henning, Dean Hodgkins, Dr. McNeil, Dr. Hill, Professor Swett, Dr. Brown, and Dr. Loeffler.

Mr. F. D. Moore acted as toastmaster and with the eloquence of a lawyer and the wisdom and veracity of a chemist extolled the virtues of the speakers. Dean Hodgkins was granted the degree M. C. S. (Moses Leading the Chemical Society), which far outshines any degree that mathematics might bequeath to its greatest master. Dean Hodgkins' interest in the chemistry department is much appreciated and we look forward to his leadership with confidence and hope, and promise to him our hearty cooperation in any effort he may make toward securing a new chemistry building.

Dr. Brown was a guest at the banquet for the first time but as chemistry and physics are becoming more closely related each year, it is hoped that future banquets may be favored with his presence.

Mr. C. L. Cottrell represented the Engineering Society and made a short talk.

Much of the success of the banquet is due to Mr. Gordon C. Tibbetts, chairman of the committee, and to Mr. Beverly Clarke, president of the society, for whose untiring efforts the members are duly grateful.

Continued from Page 1, Column 3

Friday, defeated Washington Terminal team by a score of 10 to 5.

The game was characterized by George Washington's excellent teamwork and splendid hitting. The few errors that were made can be attributed to the fact that the late afternoon sun was directly in the fielders' eyes.

Three-bagger by Grass, two-bagger by Burnston and singles by Hanna, Nichols and Brady netted four runs in the second inning for George Washington.

This game brought to light a good deal concerning our team's ability, and from all indications George Washington will give Hilltop's nine a mighty stiff fight.

Dean Ruediger Announces Schedule for Summer School

The Summer School of Arts and Science Department of George Washington University opens on the 21st of June for the three-credit courses, and on June 28 for the two-credit courses. The calendar announced by Dean Ruediger is as follows:

June 17-30—Registration, 10-12 a. m., 4-6 p. m.
June 21, Monday—Instructions begins in three-credit courses.
June 28, Monday—Instruction begins in two-credit courses.
July 5, Monday—Holiday.
July 10, Saturday—Classes meet at the usual hours.

Among the new courses to be included in the 1920 Summer School of George Washington University will be courses in Home Economics, as follows:

FOOD AND NUTRITION. This includes a study of the composition of food, principles of cookery, nutritive value of foods and menu planning. The course will be conducted by means of laboratory work, lectures and discussion.

HOUSEHOLD MANAGEMENT. This includes a study of division of income, factors affecting cost of living, the equipment and organization of the household.

TEXTILES AND SEWING. This includes a study of fibers and fabrics, sewing and elementary design.

These courses will be given by Miss Edith Allen, A. M., Columbia University, and A. B., University of Illinois. Miss Allen has been extension lecturer for Illinois state farmers' institutes, for the Kansas State Agricultural College and for the University of Texas; she has been Home Economics Specialist for Oklahoma in co-operation with the States Relations Service of the U. S. Department of Agriculture and she has taught home economics in the Iowa State Teachers' College. She has published extensively in her field and is a member of the Authors' League of America.

Professor DeWitt C. Croissant, who has been on leave of absence for the past year, will give three courses in English in Summer School.

Other important changes include a new course in the Education Department given by Professor Rhoton, of Pennsylvania State College; a new Shakespeare course on the Philosophies, offered by Dean Wilbur, and the arrangement of the courses in Government, given by Professor Hill, for the morning as well as the afternoon classes.

The French and Spanish classes, which were formerly taught by Professor Doyle, will be under Professors Cullom and Jones. Professor Doyle will teach at Cornell Summer School.

The present series of Summer Schools of G. W. U. was authorized by the Board of Trustees in the fall of 1915, and the first session was held in the summer of 1916. The enrollment of that session reached 166 students. The work given was all of college grade, was offered by the regular members of the faculty and other specialists of equal standing, and was done in a manner no less thorough than that of the regular session.

The growth of the Summer School has been steady and substantial. The enrollment in the four sessions held so far has been as follows: 1916, 166; 1917, 230; 1918, 308; 1919, 461.

The annual rates of increase have been, respectively, 35, 36 and 50 per cent. An increase of 35 per cent for 1920 would put the enrollment beyond the 600 mark.

Every session enrolls students from nearly every state in the Union and from many foreign countries. Many of these students, it is true, are employed in Washington, but that in no way detracts from the liberalizing influence of associating with them.

The following is the schedule of classes for the Summer School:

The two-semester-hour classes coming in the forenoon begin on June 28, and all the others on June 21. The two-semester-hour classes will meet five times a week for six weeks and the three-semester-hour classes five times a week for nine weeks. No classes will be held on Monday, July 5; but classes will meet on Saturday, July 10.

Courses which open with less than eight students may be withdrawn.

PYRAMID INITIATES

The Pyramid Society held its annual initiation at the Sigma Alpha Epsilon House on Saturday, April 24. The following men were initiated: William McC. Ballinger, W. Cameron Burton, William H. Crowley, J. P. Earnest, Jr., Edward J. Hanson, James C. Hatcher, Detlow M. Marthinson, Harry W. Newman, and John W. Townsend.

Following the ritual, refreshments were served by the newly initiated members. After the refreshments a short business meeting was held during which plans for next year were outlined and the officers for the Society were elected. They are: John W. Townsend, President; Edward J. Hanson, Vice-President; J. P. Earnest, Jr., Secretary-Treasurer, and W. Cameron Burton, Historian.

clothes. Petitions which were enthusiastically received have been circulated through various departments of the University. By May 1 it is hoped that enough sentiment will have been aroused against the clothes profiteer to cause members of the student body and faculty to develop a wholesome social attitude toward the wearing of patched-up clothes, old uniforms, and cheaper garments.

At a mass meeting held in the rear of Lisner Hall last Friday, Professor Doyle addressed 200 interested students. He pointed out that an old clothes movement has a sound, common-sense program, deserving the hearty support of the faculty and of the students. Samuel Bernstein briefly showed that this movement was in keeping with the highest ideals of Americanism; and John Gamba exhorted those present to emulate the snake, who wears his clothes until they drop off.

Continued from Page 1, Column 5
From C. A. SMITH, Manager of Track, 1919-1920:

1. Absolutely.
 2. Undoubtedly, because the track would be free at all times for the track team. The added attraction would be free at all times for the track team. The added attraction would be the encouragement and pep instilled by having the student body present at practice.
 3. The advantage of knowing that we were on the map in athletics and not the present condition of having fifty men of a student body of over three thousand trying out for our athletic teams.
 4. The surest way would be the compulsory tax system, whereby a certain amount of the tax paid by each student would be turned into a gymnasium building fund.
 5. Yes, with pleasure.
- P. S.—George Washington needs the compulsory tax for athletics. You can't

buy athletic equipment with "hot air" these days.

From HYDE COWLEY, Captain of Wrestling, 1919-20:

1. Yes.
2. Yes.
3. Would promote mental and physical efficiency. Considerably more men would turn out if they had a place of their own.
4. Popular subscription.
5. Yes.

From NONA POLLNER, Manager of Girls' Basketball:

1. George Washington needs a gym above everything else.
2. There would have been a great improvement in the playing of the Girls' Basketball Team if we had had our own gym to practice in. No doubt about it! Such a building would mean more student interest in athletics. More student interest would mean large attendance at games. Large attendance at games would mean better morale of teams.
3. The University as a whole would be brought together by a common interest in a gymnasium. It would tend to develop "esprit de corps." A gym means better athletic teams, and better athletic teams advertise the University.
4. I would suggest a plan of erection of a gymnasium similar to that of Catholic University, namely, that a building be erected, first, with smallest amount of equipment necessary; then as the fund increases new equipment be added until we have a modern gymnasium.
5. I am willing to do anything within my power to support this movement for a gymnasium for George Washington University. (Even to selling tags.)

From MARTHA MCGREW, Captain of Girls' Basketball:

1. It certainly does.
2. We surely would have had a better team if we had had a gym. It is not encouraging to play against teams who practice every day when you only practice twice a week, and it certainly is not conducive to a high morale to face the certainty of being beaten pretty regularly.
3. (a) Successful teams constitute an excellent means of advertising the University.
- (b) Compulsory exercises in a gymnasium would result in a higher standard of health in the University.
- (c) Would mean an increased university spirit because it would provide

a meeting place for students as well as the means for putting out more successful teams.

4. That each student in the University be charged a certain sum over and above tuition to defray the expenses of student activities, the surplus from this fund being added to the gymnasium fund each year until sufficient accumulates to put up the building.

5. The attached is about the best answer I can give to this question.

(The "attached" was a check for FIVE DOLLARS made payable to the Gymnasium Fund, George Washington University.)

From ELIZABETH EARNEST, Manager of Girls' Tennis:

1. Yes.
2. As tennis can not be played, as a rule, in a gymnasium, the Girls' Tennis Team would not have derived as much benefit from a gymnasium as the other sports. Consequently there would have been no improvement.
3. What benefits the student body will benefit the University as a whole. The students would have a chance to perfect themselves physically if they had the use of a gymnasium. A gymnasium would tend to create more interest in sports and this would cause the University to be known better throughout the country. A gymnasium will not only cause more publicity for the University, but will create more school spirit.
4. It seems as if every class should start a fund which will strive to make a Greater George Washington.
5. Yes.

The Forum

(Signed articles will be printed in this column, but THE HATCHET accepts no responsibility for the sentiment expressed.)

To the Members of the Engineering Society:

In view of the fact that electioneering methods have been resorted to in the Engineering Society elections, by one of the candidates for the position of president, the members of the Senior Engineering Class desire to express their sentiments in the matter.

Among the other candidates for this position there is a man who stands out preeminent in his work for the society during the past year. He was nominated for this position because it was known that his personality and ability to successfully complete any undertaking is absolutely beyond reproach, and that he has no ulterior motives in running for the position; he did not seek the nomination as was the case in one instance. This man is well known and liked by all the engineers, he being none other than the present M. E. vice-president, "Scotty," Walter Clifford Scott, Jr., or as the freshmen refer to him, "That big fat guy."

We the engineers, class of 1920, take this opportunity to publicly show our appreciation of Mr. Scott's good work for the society during the past year and to heartily endorse his candidacy for the position of president of the most active and wide-awake organization in the school.

The Engineers, Class 1920.
